Nixon Addresses 10,000 At Park Forest Rally

(Pictures on Back Page)
Some 10,000 persons gave an enthusiastic welcome to Vice President Richard M. Nixon and his wife, Pat, at a breakfast rally held last Thursday morning on the Park Forest Plaza. Later in the day the Nixons went to Chicago where they were greeted by the largest turnout of people since the visit of Gen. MacArthur while enroute Washington after having been fired by Truman. The crowd that welcomed the Nixons to Chicago was estimated by police at 300,000.

Gov. William Stratton, introduced the vice president, and other Republican candidates for state, district and county offices (Will and Cook) were also present. U. S. Senator Everett (Continued to Page 13)

Bremen Adds Plastic Model To Its Staff

The faculty of the Bremen Community high school has been increased. The newest member of the faculty is not a human being, but a plastic torso model of a human being.

Actually the model will be used in science classes to more easily illustrate the component parts of the human body. It is made of a life-like plastic. It is colored with lacquers and inks developed by the manufacturer in a most realistic manner. Each internal organ is detachable and can be removed to facilitate close inspection by students.

Not only will this model be used by the science and health classroom teachers, but certain sections will be utilized by teachers of other subjects. For example, a teacher of speech could use the model to illustrate and explain the mechanical method of speech production, and in this manner illustrate visually and effectively what process the human being goes thru to produce sound. Other sections of the speech mechanism could be pointed out to the student to improve his knowledge of himself and his speaking abilities.

A useful and informative teaching aid is now a part of the established curriculum at BCHS, and is typical of the effort made to employ the latest and most effective teaching methods available.

Polls To Open 6 A.M. Tuesday

The 1956 general election will be held next Tuesday, Nov. 6, to elect a president, governor and other federal, state and county officers.

The polls will be open from 6 a.m. to 5 p.m.

In addition to the regular ballot, which includes a proposal to amend the state banking laws there will be a blue ballot covering an amendment to the revenue act of the Illinois constitution.

In Cook county voters will ballot on judges too and on questions concerning expansion of the Chicago Sanitary District boundaries.

Board To Set Election Date For Sewer Bonds

Next step in the proposed sewer plan for Mokena will be the setting of a date for a \$96,000 bond issue election.

This date will be set by the village board in time so that the election will be out of the way by Jan. 1.

If the bond issue is approved the village board will then make application for a federal grant which would help defray the cost of the program.

According to a report by Engineer Robert Hamilton, following a conference with state water board officials, Mokena's would be entitled to a grant of \$74,500, which would represent 30 per cent of the cost of the proposed sewage disposal plant, its site, the proposed lift station and its site, and the cost of the trunkline sewer running from the lift station to the treatment plant.

Application for the grant must be filed before Jan. 15.

At a public meeting Tuesday night in the Mokena grade school gymnasium Mayor John Scarth said he believed the village had an excellent chance of getting a federal grant. Such a grant, he added, would not have to be repaid.

Under the plan under which the grant was estimated the entire cost would be \$408,350. This figure includes a sewage disposal plant large enough to serve a population of 3,500. It was estimated by engineers that Mokena's population, now 1,250 will reach the 3,500 figure in 20 years.

If a \$74,000 grant is forthcoming the cost of the program to Mokena would be \$337,350.

Such sum would be raised in this manner: \$94,410 thru general obligation bonds which would be retired over a 20-year period out of taxes; and \$229,440 in revenue bonds which would be retired, probably over a similar period, thru revenues accruing to the sewer and water department. The village also has \$8,000 on hand which it is prepared to put in the pot. Mayor Scarth said that it had

The Cook County grand jury returned an indictment for murder and four indictments for attempted murder yesterday, against Woodrow Blaylock. The accused is being held without bail in the Cook county jail.

Blaylock is charged with the murder of his mother-in-law, Mrs. Florence Anderson, 61, and the attempted murder of her husband, Hilding Anderson, 65, his estranged wife Shirley, 37, his step-daughter Judy Roe, 16; and Fred Erickson, 68, who made his home at the Anderson farm at 171st and Oak Forest ave., Tinley Park.

The latest report from St. Francis Hospital in Blue Island where Mrs. Blaylock and her father Hilding Anderson, were taken after the shooting, is that the condition of both has improved, but they are still seriously ill.

His step-daughter Judy and Fred Erickson were released.

The events leading to the fo ay, as learned thru interrogation of the surviving victims by Tinley Park police chief, Harold C. Moore, began when the accused Blaylock kicked on the back door of the Anderson home about 12:45 a.m. Monday.

The peaceful farm home, where the family had retired, was soon turned into a bloody slaughterhouse, as the accused Blaylock allegedly first loosed a shotgun at the head of Mrs. Anderson and then pumped three bullets from a 22 calibre pistol into her body. She was discovered mortally wounded on the floor of the kitchen by Tinley police.

The telephone had been ripped from the wall, indicating that perhaps the assailant had tried to prevent Mrs. Anderson calling for help before he shot her.

From testimony of the less seriously wounded victims, Judy and Erickson, Blaylock then visited the bedroom of his father-in-law and shot him with a pistol. Three bullets were found to have pierced the spinal cord.

A shotgun was used on the three victims in their bedrooms, it was said. The wife Shirley was wounded in the neck, his step-daughter Judy in the face, and Fred Erickson, who made his home with the Anderson family, was grazed on the ear by a shotgun blast.

The gunman fled after the shooting. Judy then drove to the farm home of a neighbor, (Continued to Page 12)

been estimated the cost to the taxpayers of the general obligation bonds would amount to approximately five cents a day on a home assessed at \$5,000.

The proposed combined minimum rate for sewer and water would be \$4 a month for 2,000 gallons. The rate per thousand gallons of water would decline as more is used.

Mokena is now without sewers and the state water board frowns on communities who attempt to dispose of sewage thru septic tanks. Eventually, it was said, septic tanks will be outlawed in built up areas.

Village Players Ready With Play

(Picture on society page)

For every member of the cast that will appear in "John Loves Mary", a comedy to be presented by the Mokena Village Players tomorrow and Saturday nights in the Mokena grade school auditorium, there will be a couple of workers behind the scenes.

Curtain time is 8 o'clock and long before the audience arrives—before the cast arrives for that matter—the stage crews, property people, make up staff, electricians and others will be on hand to get ready for their jobs.

Director of the play is Lois Loebe, of New Lenox, with Pat Dean as prompter.

Scenery painters and set builders under the direction of Norval Robinson have been playing their skills all week. Those engaged in this part of the production include Wendell Hamilton, Don Bost, Charles Burkhardt, Marion Owen, George Carlisle, Herta Hamilton and George Bills. The latter is also in charge of lighting.

Fran Robinson and Marcella Lehman comprise the property crew and Mary Zemeske, Virginia Sherwood and Angie Surovich will be in charge of make up.

Harriet Swart and Edna Clark are in charge of ticket sales. The program was drawn up by Mary Looschen and Lois Carlisle.

Upper right, Florence Anderson, 61, is dead, her husband, Hilding, 65, upper left, seriously wounded, Shirley Blaylock, 37, estranged wife also seriously wounded, and Judy Roe, 16, stepdaughter, slightly wounded (middle photos) when Woodrow Blaylock, 38, below, allegedly attacked occupants of the house hold near Tinley Park with a shotgun and pistol early Monday morning. With Blaylock in the picture is Tinley Police Officer Wilbert Mager.

Footlighters To Present Annual Will County Playfest At L-W GOP Holds Open House Tonight

On Nov. 9-10, next weekend, the Footlighters club of Lincoln Way High school will present its third annual Playfest in the gymnasium at 8 pm.

In the past two years the club has given a total of seven one-act plays in these Playfests and they have been a huge success, financially and entertainment-wise.

This year should be no exception with the club presenting three popular, fast moving, prize winning plays. The three plays to be given will be: "The Case of the Crushed Petunias," a delightful drama by Tennessee Moods, "Sorry, Wrong Number," a highly suspenseful drama showing the fears of an invalid with only a telephone connecting her with the outside world. You may have seen this Lucille Fletcher creation on "Suspense" on television. The third play will be "If Men Played Cards as Women Do", which is a burlesque on the womenly charms (?) of a card game played by four boys. The varied moods of these plays should provide an entertaining evening for all.

Tickets may be obtained from members of the Footlighters or at the door.

Added interest will be provided by the fact that the plays will be presented in arena style theatre or "Theater in the round."

Funeral Rites For C. A. Rinke Are Held Monday

Funeral services for Charles A. Rinke of Mokena, who died last Friday, were held Monday morning in St. Mary's Catholic church, with the Rev. Fr. Cecil Koop officiating. Burial was in the church cemetery.

Mr. Rinke was born in Mokena and lived there all his life.

He was employed for 48 years in Joliet by the Rock Island railroad until his retirement two years ago. He was a member of the Modern Woodmen of America, the Holy Name society and the St. Mary's church in Mokena. For the past year he was a maintenance man at the Cooper and Hostert garage.

Beside his sister Elizabeth with whom he lived since the death of his parents, the late Mr. and Mrs. Paul Rinke, there survive three brothers, Paul, Irving and George, all of Mokena.

Angland to Teach Investment Course At Night School

Considerable interest seems to have been aroused in the community regarding the proposed course in INVESTMENTS to be offered in the Lincoln-Way adult education program during the second semester of this year.

Maurice P. Angland, a resident of Mokena, has agreed to teach the course. Mr. Angland has become well-known in the community during his residence there and he is well qualified for teaching in the field of investments. After graduating from college Mr. Angland entered the American Consular service and was stationed at Stockholm, Sweden, with the American Consulate General, where his duties were concerned with commercial research for American business firms.

On his return to the United States he joined the investment affiliate of Chase National Bank of New York. Later he had his own investment firm at Minneapolis and recently joined the staff of Reynolds and Company of Chicago Heights. He writes a column, "Business and Finance", each week for the Semler Press.

Further details regarding the course will be announced later.

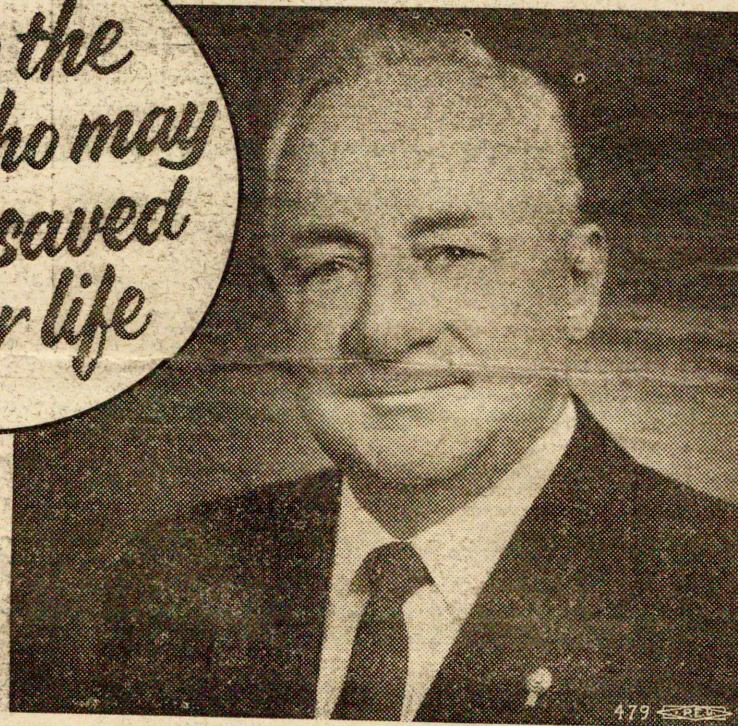

Complete Safety Course in Boat Handling

Eleven Mokena Girl Scouts and their leader, Mrs. Clarence J. Berg, of Marley, have completed the Red Cross rowing and small craft safety course, according to Mary Francis Kennedy, safety services director for the Will county chapter of the Red Cross. The course was taken at the Girl Scout camp at Channahon, and covered 20 hours of swimming and boat handling. Pictured here are, Diana Bost and Charon Cappel, in the boat in the background at far left; in the foreground, left to right, are, Bonnie Bruce, Marilyn Ambuehl, Carole Eggness, Sueann Shoop, Vivian Jacobson, Geraldine Munch, Carylin Rinke, Gayle Harling, Louise Berg. The girls represent Troops 40 and 42. Mrs. Donald Ambuehl is the leader of Troop 40, Mrs. Berg, of Troop 42.

CHARLES F.
CARPENTIER
SECRETARY OF STATE

In 1953, your Secretary of State, Charles F. Carpentier, successfully fought for the passage of the New Illinois Drivers' License Law . . . hailed by traffic experts as one of the best in the nation.

Since that time Secretary Carpentier has been foremost in the battle for public safety. Evidence of his aggressive leadership and intelligent administration is shown by the fact that he has revoked, suspended or cancelled the driving privileges of more than 33,000 drunken, reckless or negligent drivers!

One of them might have killed you . . . or someone dear to you!

During the time that Charles F. Carpentier has been in office, hundreds of thousands more vehicles have crowded onto Illinois highways—yet the death rate on our highways has not appreciably increased while the national average is up 8%!

Why?

Because of Charles F. Carpentier, your Secretary of State and his strict, honest, forceful administration.

When you vote for Secretary of State Charles F. Carpentier you will vote to save lives . . . and the life you save may be your own! Remember—

Men and Men
George stirred restlessly in the after-supper easy chair. He didn't feel like reading tonight, he began, "and there's nothing much on the air. So—" "You think you'll take a stroll downtown," Molly asked, with a smile.

"Yeah. Buy a cigar, or something. . . ."
"And sit around and talk with the boys. Politics, maybe."
"Well, I don't know about that. Talk, anyway."
Molly put her mending aside, and walked toward the telephone.
"It's a good idea for husbands to get away from the house of evenings, sometimes, and have

a little men-talk. Guess I'll call Anne Blake and ask her to bring her sewing over, while you're gone."
"Men-talk while we men-talk" George chuckled, going over to get his hat. "Good for both of us!"
OUR "COLORLESS" MALES
Ten times as many men are color blind as women, according

National Tea Breaks All Its Sales Records

All previous sales records in the 57 year history of National Tea Co. have been surmounted, according to announcement today by H. V. McNamara, the company's president.

Piling sales record upon sales record thruout 1956, the company has now accumulated near \$39 million in increased sales for 40 weeks of operation, which is a new all-time high for the year to date, and the highest in the company's history.

Sales for the four weeks ending Oct. 6, were likewise the highest for any normal four week period on record in the company's history, having been exceeded only by the final period of 1955, which included Christmas Week, and which still stands slightly above the sales accomplishment for the past four weeks.

Consolidated sales for National Tea Co. for the four weeks ending Oct. 6, totalled \$48,596,029, which was an increase of \$3,204,628, and a gain of 7.06 per cent over the same four week period of 1955.

Cap. John Molter, of the Isle Pines near Ely, Minn. is visiting several days with his daughter Mr. and Mrs. Stuart Culp. Mr. and Mrs. John Cruise of Morris were luncheon guests of their son, Mr. and Mrs. John Cruise, Jr. Monday.

Cub Scouts, den 5 of Pack 18, held their regular meeting in the John Cruise home Thursday. Further review of Bob Cat requirements was made, and a recipe for making colored coal

crystals, which will be their next project, was studied. Following the business meeting the members enjoyed playing bingo.

Miss Evalyn Giesen of Chicago was a weekend visitor at the Stuart Culp home. Friday evening she attended, as the guest of an Alpine teenage group, the teenage Halowe'en costume dance held in the Moose hall in Lockport.

Board members of the Maue PTA met at the school Wednesday afternoon, where they assembled the 1956-57 year books. Many interesting programs have been planned for the year.

Early Dark Adds Hazards To Auto Travel

Accidents go up when the sun goes down, Charles M. Hayes, president of the Chicago Motor Club pointed out, since the return to central standard time in Chicago and 331 downstate communities.

Motorists should be extra alert, warns the Motor club

president. Darkness will fall during the afternoon rush hour when both pedestrians and motorists are returning home from work.

Hayes stressed that three out of five traffic fatalities occur at night although only 30 percent of the driving is done during darkness.

To reduce traffic accidents, the Club's safety and traffic engineering department suggests:

1. Cut down driving speeds at night. With less visibility stopping distances are greater.

2. Be especially watchful for pedestrians. Wearing dark clothing under artificial light, a pedestrian is hard to see.

3. Keep headlights and windshields clean to provide as much visibility as possible.

4. Check your tail lights, turn signals, high and low headlight beams to make sure they're working properly.

5. Recovery from glare is slower when you're over 30. Make allowances for your age.

PRESIDENT EISENHOWER AT PITTSBURGH, PA.
OCTOBER 9, 1956

No Gold Star Mothers ... No Casualties

In '52, Americans indicated their preference for President. They were tired of inept men who wasted American lives. They chose a man of family, of military experience and unquestionable integrity: Dwight D. Eisenhower.

The times cried out for such a man. American boys were fighting in Korea. Casualty lists clogged our newspapers. There was sorrow in many families; fear in others.

Today we have peace. With Eisenhower's experienced and steady hand at the helm, we have stayed at peace. There are no Gold Star Mothers, no casualties.

We have new crises in London. In Moscow. In Egypt. In Latin America, China and Japan. Only a man who has dealt successfully with such critical events in the past, is trustworthy today.

If Eisenhower is your idea of a President in whom your family can have confidence, then support him. Support him by giving him a Republican Congress, and Republican state, county and city officials.

So vote the straight Republican ticket. Vote for the men and the party pledged to work together for peace and prosperity.

Mary Alfievic discussed the safety course taught during sophomore home room periods as well as the safety practices integrated in homemaking courses, the Future Homemakers program and 4H club work. Mrs. Geuther served as teacher resource person for the discussion. The meeting was held at the Morrison hotel Tuesday evening at 7:30, Chicago.

32-0 Score Makes It Happy Homecoming For Spartan Partisans

Lincoln-Way Eleven Crushes Morris 30-0 For Fourth Win; To Meet Reavis In Final Tilt

By Denny Wheeler
The Lincoln-Way Knights reached their season's peak last Friday evening as they massacred Morris 30-0 to ruin the Redskins' Homecoming game proceedings. On this chilly night, the Red and Black could do little wrong and the festivities were highlighted by seatback Ron Studnicki's three touchdown jaunts which raised his season point total to 73. The 155 pound halfback raced to paydirt on sprints of 95, 42, and 3 yards. Morris' Wade also raced some 90 yards to thrill the large throng of L-W supporters which had journeyed to Morris.

yards to conceivably ice the game.

Any dreams for a comeback that Morris might have had were shattered when Jim Stauffenberg raced 40 yards and was one man from a touchdown. Gullicksen also "almost" scored as he wheeled 15 yards to the Morris 5. With 41 seconds left, the Knights decided to boost Studnicki's point total, and on the third play the elusive halfback scored as the Red and Black supporters went wild. The game ended with Rich Bailey's kickoff and a good Morris runback.

The amazing Lincoln-Way squad, carrying only 19 men, now has won four of seven contests, outscoring their opponents 121-91. Friday, November 2, the team concludes the most prosperous season ever enjoyed at Lincoln-Way as they battle Reavis in the first Lincoln-Way homecoming.

In the past two weeks, the Knights have certainly come into their own, trouncing Oak Lawn and Morris.

Tight First Half

After the opening kickoff no one could make any progress, and the teams exchanged punts. "Luck" Gullicksen, L-W's right halfback, fumbled at midfield and Morris took over. They couldn't organize a drive, however, and had to punt. The ball rolled dead on the Knights 13 yard line. Then, on the first play from scrimmage, Morris Wade broke off tackle and went all the way to put the Knights ahead 6-0. The conversion failed.

Lincoln-Way continued to keep the ball game in Morris territory and might have added to their count had not the alert opponent's secondary intercepted two passes. The half ended with L-W holding a scant 6-0 advantage.

In the second half the fireworks began. Woodward, playing fullback, fumbled on the L-W 26 and Morris tried once again to move. They moved but in a homeward direction as the aggressive Knights threw them for losses. The resulting punt rolled out of bounds on the Knight 5 yard line. Studnicki then took Fredin's handoff on the first play and scurried 95 yards to score on the second longest touchdown run in Knight history. Wade ran back an intercepted pass 98 yards in the Bremen tilt.

Again the conversion failed, as it did after each of the Knights' five scores. The big Morris line filtered thru to block three of the attempts.

Morris ran the kickoff back to their 23. In three plays they gained two yards and were forced to punt. Fred Heitman rushed the kicker hard, and the result was a poor kick. Lincoln-Way took over on the Morris 35. Gullicksen drove 12 yards to a first down. He added five more yards and Ron Fredin sneaked six yard for another first down. Then Gullicksen broke thru and scored from 12 out. Lincoln-Way 18, Morris 0.

Early in the fourth quarter, Studnicki took off around end, and behind a magnificent block by Woodward he galloped 42

Oak Lawn's league leading Spartans defeated the Carl Sandburg Eagles 32 to 0 as Oak Lawn celebrated Homecoming Friday evening.

It was the worst defeat suffered by Carl Sandburg this year as the Spartans scored in the early minutes and continued to score at will thereafter. The opening kickoff to the Eagles was fumbled and recovered by the Spartans, and Oak Lawn soon had a touchdown. The running of Collier of Oak Lawn was unstoppable.

Oak Lawn continued the rout by scoring twice in the first quarter, once in the second, and twice in the third quarter. The shock troops finished the game in the fourth quarter. The only quarter against the reserves and then the Eagles did not punch far enough to score.

By blasting Sandburg, the Spartans of Oak Lawn maintained their loop lead. This game continued the strange reversal of for in the Southwest Suburban Loop for the year. Two weeks ago, Carl Sandburg edged out Lincoln-Way 20-13, but last week Lincoln-Way romped over Oak Lawn 20-7.

Now Oak Lawn comes back one week later to slaughter the Sandburg team 32-0. Three teams still remain in the running for the title as the loop enters its last week of play. Conference standings are as follows:

Conference Standings

	W	L	T
Oak Lawn	3	1	1
Reavis	3	2	0
Rich	3	2	0
Sandburg	2	3	0
Evergreen	2	3	0

Carl Sandburg closes the 1956 season with a home game against Evergreen Park Saturday at 12:30. The varsity contest will follow the Frosh-Soph game.

The Carl Sandburg freshman-sophomore team continued its fine performance as it blanked Oak Lawn Saturday morning 14-0. Sandburg completely dominated the game as Hosier's quarterbacking and passing, Freer's fine running, and a stout defensive line kept Oak Lawn at bay. This was the third win enjoyed by the Eaglets and represented the most victories the team has enjoyed in the history of Carl Sandburg. With three wins, two losses and one tie on the record. The Eaglets finish the season against Evergreen Park on Saturday.

Bowlers and the bowling industry of the Chicago area will conduct a third annual campaign Nov. 12 thru 18 to raise scholarship funds to send blind children to regular nursery schools.

The week long drive will take place in some 350 alleys of Chicago and suburbs under the auspices of the Chicago Bowling Council and cooperating groups.

Members of the council are the Bowling Proprietors Association of Greater Chicago, the Woman's Bowling Association of the Windy City, the Chicago Bowling Association, and bowling equipment manufacturers and dealers. Also taking part are bowling alley proprietors in various suburbs.

All proceeds from the drive will go into the Nursery School Scholarship Fund sponsored by Parents of the Blind to send blind youngsters to regular nursery schools for normal contact with the sighted at an early age. Child development experts endorse the program as a valuable start toward independent and happy adulthood.

Containers for contributions will circulate among league bowlers at regular game periods during the week and will be available to other contributors throughout the seven days and nights of the drive.

In the first two years' campaign, Chicago bowlers gave a total of about \$29,000, all of it now spent or allocated for blind children in the city and suburbs. Since the number of blind children of nursery school age will almost double during the coming year to reach a record total, it is estimated that \$25,000 to \$30,000 will be needed in this year's drive to avoid any cut-back in the program.

Garage Owner To Celebrate Anniversary

Lehmann's garage and service station at 167th and Oak Park ave., Tinley Park, will celebrate the tenth anniversary of its opening on Nov. 1, 2, and 3.

The business is owned by John Lehmann, but was originally operated in partnership with his two brothers, Karl and Art. Karl withdrew from the business because of his health and was subsequently killed in a tragic accident. His brother Art, is now in business in Worth.

Two full time skilled mechanics besides Mr. Lehmann, and four part-time mechanics handle all types of car repairs, includ-

ing front end work and wheel balancing. The large building is fully equipped to handle all types of car maintenance.

All related items, including tires and car accessories are stocked.

A state testing lane for trucks is maintained at the location. Part of the property is leased by the Illinois Bell Telephone Co. for the storage of trucks and equipment.

John Lehmann showed early interest in automobile mechanics and when in grade school worked part time in a garage. He also was employed as a mechanic in Blue Island for ten years.

He is the youngest member of a large family and was born in Tinley Park.

During the last war, John fought in four separate combats in New Guinea, where he was stationed for four years with the 32nd infantry division. They were the first Americans to arrive in the South Pacific and saw action in the first sea battle in that area.

He is an active member of the Zion Lutheran church and served on the church council for four years.

His wife, Eve'lyn, was born in Blue Island. They have one son Jay, 5 years old.

Local organizations of which he is a member are Chamber of Commerce, Retail Merchants Council and the Veterans of Foreign Wars.

John bowls with the Tinley Park Business Men's league and sponsors four bowling teams.

An allied business to his garage, is a lawn mower sharpening business.

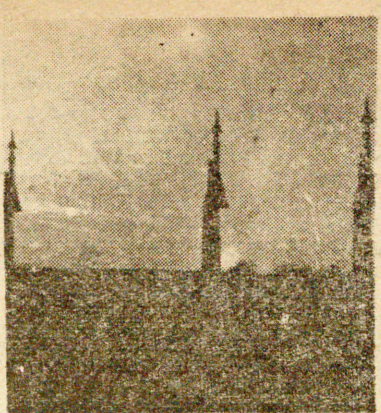

Registration Of Voters In State Shows Decline

Illinois will have 9,588 precincts in the Nov. 6 general election, an increase of 77 from the April primary, Secretary of State Charles F. Carpentier said today.

Total estimated registration in the state, based on figures submitted by county clerks, stands at 5,217,858, a decrease of 85,663 from the general election of 1952, Secretary Carpentier said.

Cook county's registration of 2,610,000 is 134,671 less than four years ago, while downstate registration of 2,607,853 is an increase of 49,008.

Defenders

Silhouetted against the sky are three of the guided missiles at the Orland Park NIKE site that can be launched against aerial invaders whose target was Chicago. The NIKE installation held open house last week-end and hundreds of persons from the area made use of the opportunity to see just what the Anti-Aircraft force has to intercept enemy planes that might invade this area.

A recent survey reveals that 33,500,000 families with TV sets spend about 2,300,000,000 man hours a week watching the screens and 1,900,000,000 man hours a week earning a living. If they sleep a normal eight hours a night, it adds up to 6,500,000,000 man hours a week.

Our Recommendations

We like Ike!
And with reason.
Peace and prosperity have
marked his four years in the
White House and he has restor-
ed integrity and dignity to the
Presidency.

The crook-and-crony crowd,
shut off from a fast grab at the
public money, complain of hard-
times and doubtless it has been
such a period for them but for
the rest of the country and the
people who work for a living
it has been all right. If the past
four years fall into the category
of hardtimes then by all means
let us have more of them.

Statistics show that some 67-
million persons are employed—
a record number—and at higher
wages and under better work-
ing conditions than has ever
been enjoyed.

And don't forget—the prosper-
ity we have had under Eisenhow-
er has been a prosperity with
peace. The only prosperity the
country ever had under the last
three Democrat presidents, Wil-

son, Roosevelt and Truman was
tied to war. Apparently the only
way in which Democrat leader-
ship knows how to bring pros-
perity to the country is to in-
volve us in a war.

Eisenhower has been a good
president. He is level-headed
and thinks clearly and straight.
He also has balanced the bud-
get, an achievement no Demo-
crat ever accomplished. Richard
M. Nixon, Republican candidate
for vice president, has made an
excellent record and has exhib-
ited great statesmanship as a re-
presentative of the President in
many trips abroad that have
taken him to all quarters of the
globe.

Before his election as vice
president in 1952, Nixon served
in the Congress as a represent-
ative from California.

His work on Un-American ac-
tivities brought him into national
prominence. In bringing the
traitorous machinations of Alger
Hiss to light and preparing the
way for the trial and conviction
of this Communist stooge, Nixon
incurred the wrath of the
Reds and fellow travelers and
they vowed then to "get him." Since that time there has been
a constant campaign to discredit
Nixon.

Nixon deserves the support of
every good citizen not only be-
cause of his capabilities but be-
cause of kind of enemies he has
made.

Why anyone would risk the
return to mediocrity in govern-
ment by voting the Democrat
ticket in this election is incon-
ceivable, but there will be a
great many. The boys who would
endeavor to get you to trade
an orchard for an apple, espouse
the cause of Stevenson.

Stevenson was a woefully
weak governor of Illinois and
there is nothing in his record
to show we would be anything
other than a woefully weak
president.

Four years ago Stevenson told
the delegates to the Democrat
convention that he wasn't big
enough for the job. Prior to the
convention this year, Sen. Ke-
fauver, the opportunist from
Tennessee now Adlai's running
mate, and Harry Truman were
saying the same thing about
him.

Adlai was a bust as governor
and were it not for the horse-
meat scandal and the counter-
feit cigaret tax scandal that cost
the people of Illinois \$13-million
dollars, no one would remember
anything about his term.

The Reds and their followers
might remember Stevenson as
governor, of course, because of
his veto of anti-subversive leg-
islation.

Stevenson was a tumble-weed
as governor. He is a tumble-
weed as a candidate for the
presidency and if by all-fortune
he should be elected he would
be a tumble-weed president.

The slightest breeze causes
him to alter course. He starts,
stops, drifts backward, goes this
way, that way and then in cir-

cles until some vagrant whisper
sets him scudding off again on
some new track.

So far every effort by Adlai
and Estes to come up with an
issue has backfired and they
are now pinning their hopes on
the big city Democrat machines.

We recommend the re-election
of President Eisenhower and
Vice President Nixon as best
suited for the task of leading
the United States to a brighter
future.

STATE TICKET

We also recommend the re-
election of Governor Stratton
for a fine record of accomplish-
ment, and the state Republican
ticket, John William Chapman,
for lieutenant governor; Charles
F. Carpentier, for secretary of
state; Elbert Smith, for state
auditor; Elmer J. Hoffman, for
state treasurer; Latham Castle,
for attorney general; Mrs. Earl
Benjamin Searcy for clerk of
the supreme court.

Accomplishments of Gov. Strat-
ton in the past four year include
reapportionment to give fair and
equal representation in the leg-
islature for the first time in 50
years;

The greatest roadbuilding con-
struction program in the history
of Illinois;

Increased state aid to schools;
Improvement and enlarge-
ment of facilities for the treat-
ment of those mentally ill;

Aid to cities suffering from
lack of revenues;

Saved millions of dollars thru
strict budget control;

Increased unemployment and
Workmen's compensation bene-
fits, and increased aid to farm-
ers by a million and a quarter
dollars in the fight on brucel-
losis and other livestock dis-
eases.

We also recommend Everett
McKinley Dirksen for re-elec-
tion as United States senator,
and the re-election of William
McVey as congressman from
south Cook county, and Noah
M. Mason as congressman from
the 15th district, which includes
Will county. Ike needs a Re-
publican congress.

"NO" ON BLUE BALLOT

We recommend a "Yes" vote
on the proposed banking amend-
ment, the proposition that will
be found in a corner of the
regular general election ballot.
Passage of this amendment will
improve banking practices and
also raise a bar against any pos-
sible repetition of a fund raid
by a state auditor.

We recommend a "NO" vote
on the proposal to amend the
revenue section of the state
constitution as outlined on the Blue
Ballot.

Passage of this amendment
would be handing the legisla-
ture a blank check. Under its
enact any kind of tax law it saw
provisions the legislature could
fit. The only exception would
be a "graduated" income tax.
But an income tax under any
other name would be just as
steep. There would be no bar
against a flat income tax, and
Mayor Daley is plugging for
passage of the amendment so

he can get the legislature to
enact an income tax for Chicago.
Only he calls it a payroll tax
instead of an income tax. It
would apply to every person em-
ployed in Chicago regardless of
his place of residence. And you
can bet the last dollar the legis-
lature might leave you that, other
cities or counties would fol-
low suit.

Naturally the free spending
politicians of both parties are
for the amendment and you can
readily imagine the flood of tax
laws that would follow if the
amendment is adopted. You can
also imagine how difficult it
would be to get rid of some of
those laws. Taking tax money
away from a tax supported body
is like trying to take a chunk
of meat away from a hungry
and ill tempered Bengal tiger.
Frankly we believe it would be
easier to cope with the tiger.
Not a single organization con-
cerned with state taxation as
it affects business, real estate
and individuals is supporting
this amendment. We urge its
defeat.

FOR WILL COUNTY VOTERS

We recommend election of
Paul V. Wunder, of Joliet, for
clerk of the appellate court in
the second appellate district, a
man well qualified for the post.

And for Will county we rec-
ommend election of the entire
Republican ticket, Warren Wood
and Louis Bottino for state rep-
resentatives in the 37th district;
Frank H. Masters, Jr., for state's
attorney; J. Elmer Swanboro,
for circuit clerk; Robert L.
Spreitzer, for recorder; Martin
Lundquist for auditor and Wil-

lard G. Blood as coroner.

All are qualified, all will make
good public officials.

On the Democrat ticket in
Will county there are two cand-
idates for the legislature, Fran-
cis J. Loughran, the incumbent
who is just completing his first
term, and John J. Clemens, Jr.
It is Clemens first flyer in poli-
tics and some Democrats refer
to him as a converted Republi-
can. Loughran is a veteran of
the political wars and a life-long
Democrat. Loughran and some
of the Democrat heirarchy in
Will county have been at odds
for years and the feud is still
going on. Political observers
pick Loughran to win, it being
generally conceded that the Re-
publicans will elect both of their
candidates.

Urge More Aid For Disabled Illinois Workers

A new and broader workmen's compensation law, designed to place greater emphasis on medical rehabilitation of workers, will be proposed at the next session of the General Assembly by the Illinois State Medical Society.

Entitled "The Workmen's

Compensation and Rehabilitation Act," the bill would make it mandatory to provide rehabilitation itself and training for disabled workers. This is not provided by the present law. It combines features of the old Workmen's Compensation Act and the Occupational Disease Law.

The bill was drawn up by the state medical society's committee on industrial health after long and careful study of the present state laws and similar laws in other states. The act's avowed purpose is "restoring occupationally injured employees to maximum health and voca-

tional opportunity as self-supporting citizens."

Chairman of the committee is Dr. Frederick W. Slobo of Chicago. He said his group felt that "the present administrative machinery was cumbersome, outdated and does not meet the needs of the injured worker."

INDICT W. BLAYLOCK:

(Continued from Page 1)

Emil Bettenhausen, who called police.

Blaylock was taken into custody by the Chicago Heights police a short time after the shooting at a gas station where he had stopped to make a telephone call. Leslie Wagner, the attendant became suspicious when he overheard Blaylock mention a shooting to someone on the other end of the line.

He went outside, searched Blaylock's car and discovered a shotgun and pistol. He hid them in an oil barrel behind the building. Later he alerted a motorist to call the police.

Following the telephone conversation, Blaylock asked Wagner if he would like to buy a gun, saying he needed some money. Wagner offered him \$10 for it stalling for time until the police arrived. Blaylock agreed to take \$10, although he wanted \$25 for the gun. Before he could discover the guns were missing from his car, police arrived.

The accused killer was turned over to Tinley Park police who questioned him. His non-committal answer was "I don't know, I don't remember anything."

At a preliminary hearing in Tinley Park Monday morning, presided over by Judge Allen Verhage, Blaylock insisted he remembered nothing about the shooting. At a coroner's inquest presided at by Deputy Coroner Fred O'Brien in the West End Undertaking parlors in Chicago Heights Tuesday morning, Blaylock did not testify.

He was charged with murder by Judge Verhage at the preliminary hearing, who ordered him placed under arrest and be turned over to the state's at-

torney's office for action by the Cook county grand jury.

Police Chief Moore, Judy Roe and Fred Erickson testified at the inquest. Present were Ben Stamos representing the state's attorney's office, Blaylock and his attorneys, Herbert Folkers of Frankfort; and E. T. Breen, a Chicago lawyer.

The coroner's jury charged Blaylock with murder and ordered that he be bound over to the grand jury.

Coroner O'Brien praised police chief Moore and his department for the fine manner in which they conducted the investigation.

The 38 year old Blaylock had been living at 6811 Hickory st., Tinley Park. His wife, Shirley, was divorcing him and he was under an injunction to refrain from molesting her. She had been living in the home of her parents, where the shooting occurred.

On the Saturday evening preceding the tragedy, Blaylock had visited the Anderson home,

where Mrs. Blaylock was entertaining members of her daughter's girl scout troop at a Halloween party. He took his infant son Bobby with him when he left, which he had been doing on occasion under the terms of the separation from his wife.

The local police department received several complaints of family disturbances at the Blaylock home prior to the separation.

Chief Moore said. About two years ago Mrs. Blaylock reported to Tinley police that she threatened her with a gun.

Blaylock has two brothers, Norton and William, of Frankfort. His parents live in Mississippi, his original home.

He is also the father of a year old daughter by a former marriage. He was employed at the Acme Steel Co. in Riverdale.

**Why Millions Call Him
"HOLY FATHER"**

Catholic loyalty to the Pope is the cause of never-ending amazement to many non-Catholics.

They wonder how an exclusively spiritual leader can command the devotion of nearly four hundred millions of people. They cannot explain why this vast religious family... representing every race, color, language and political belief on the face of the earth... lives and grows through the ages, while man-made empires have their day of glory and then disappear.

What is there about this one man that causes people to speak of him in a hundred tongues as "Holy Father"?

We find the answer, of course, not necessarily in the holiness of the man himself, but in his Christ-given office. The answer is found by tracing the history of the Catholic Church... the history of 262 successive Popes... back through nearly 2,000 years to Jesus Christ Himself.

We know as a matter of historical fact that Christ did establish His Church... that He commissioned the Apostle Peter as its first head... that He sent His Apostles forth to teach men to observe all things He had commanded.

We know from the New Testament that the Church was actually organized... that it was governed by the Apostles under the leadership of Peter... that it was teaching Christ's truth far and wide, long before the last book of the New Testament was written and the books of the Bible were collected into one volume.

Christ's purpose in organizing a Church was to make certain that the good news of Redemption would be preached to all men... even to the end of the world. To

accomplish this with fallible men, required that He establish a Church - divinely protected from error in transmitting His teaching through the centuries.

The Catholic Church traces its unbroken history back to the Apostles - back to Christ. And Catholics today call Pope Pius XII "Holy Father" because he is the lawful and historical successor to Peter, the first Pope. He is in our time... as Peter was in the first century... the Vicar of Christ on earth.

Would you like to know more about the Pope... why the promises made by Christ to Peter and his successors make the Pope the most important man in the world? Then write today for a pamphlet which we shall send you free, in a plain wrapper. And nobody will call on you. Ask for Pamphlet No. KC-4.

NIXON ADDRESSES:

(Continued from Page 1)

Dirksen, who is a candidate for re-election, spoke briefly.

But Nixon was the center of attention. The crowd roared approval when he urged re-election of President Eisenhower. Cheers greeted Nixon's behest to elect a Republican house and senate to carry out the Administration's program.

The crowd cheered the vice president repeatedly.

Nixon stressed that the Eisenhower administration acts for the best interests of all Americans.

The most important single issue to be decided next Tuesday, Nov. 6, the vice president said, is to elect a man who "by experience, judgement and background is best qualified to keep the peace."

"Mr. Eisenhower," Nixon continued, "has had experience at winning a war as well as keeping the peace. We need four more years of leadership."

"The only threat to peace is

communism and to control communism we must keep stronger than they are. It's the only deterrent."

"We don't want to change our commander-in-chief."

Nixon went on to say that the "four years of the Eisenhower administration have been the best four years for the great majority of Americans."

"Sixty-seven million wage earners have higher wages, and better security," he stated. "Stick to the administration that has brought this about."

Nixon had high praise for Sen. Dirksen and Congressman Les Ahrens, Republican leader of the lower house, for their support of the President's program.

He also praised Gov. Stratton for his work in Illinois.

"When he found a breach of trust," Nixon said, "it was his policy to clean up the mess, not hush it up."

Hayes Robertson, Republican committeeman of Rich township, was program chairman. Rich township high school classes were permitted to attend that

they might see and hear the Vice President of the United States, and the national anthem was led by the Rich high school band and chorus.

May DeLue, a student, presented a bouquet of 'mums to Pat Nixon, the attractive and gracious wife of the vice president.

Among those on the platform were Congressman William McVey, Benjamin S. Adomowski, candidate for state's attorney in Cook county; Terrell Clark and Harold Hoover, candidates for state representative in the second district and Frank Ozinga, candidate for state senator in the sixth district.

Speaker of the Illinois House, Warren Wood, of Plainfield, introduced his running mate in the Will county district, Louis Bottino, of Lockport, and the Will county candidate, State's Attorney, Frank H. Masters, Jr., Recorder Robert L. Spreitzer, Auditor Martin Lundquist and Coroner Willard G. Blood, also J. Elmer Swansbro, a candidate for circuit clerk.

Paul V. Wunder, of Joliet, candidate for clerk of the appellate court of the second district, was also on the platform.

C. H. Peterson, chairman of the Will county Republican central committee, accompanied the Will county candidates. A large segment of the crowd came from Will county.

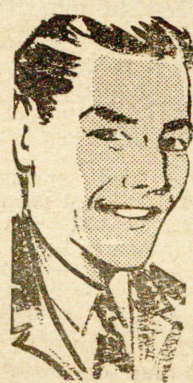

Vice President Nixon spoke approximately half an hour, finishing his address at 10:10 and went to Chicago Heights for another speech. Later he delivered a speech at the Trianon ballroom in Chicago and Thursday night he spoke at Rockford.

sisters, Mrs. Ella Wheeler of New York and Mrs. Helen Up-ton of Pennsylvania.

Services were held Sunday Oct. 28 at the Hirsch chapel in Tinley with the Rev. Oliver C. Hotz, pastor of the Community in Tinley Park cemetery.

Palos Village Players To Give Popular Comedy

The Palos Village Players are in rehearsal for a production which will be given at the Palos Park Village hall, 123rd street, Palos Park, Nov. 30 and Dec. 1 and 2 at 8:30 pm.

The play will be "The Women", a comedy written by Clare Boothe Luce. This play opened in New York in Dec. 1936 and immediately became a success. It ran for 657 performances toured the United States and 18 foreign countries, has twice been made into a motion picture, and has been presented on television. "The Women" is a satire on idle, rich females and is unusual in having a cast of women only. It is full of good laughs and hilarious situations.

Reservations for tickets may be made by calling Mrs. John Faucette, Gibson 5-1330.

"The Women" will be the 50th production of the Village Players. The organizing meeting of this group was held on Nov. 5, 1942 in the Council room of the Palos Park village hall. Zay Smith presided and was elected president with three supporting officers: Judith Bond, vice president; Mr. and Mrs. William Andrews, secretary and treasurer. The Andrews now live at Paris, Ill.

From the beginning, the Village Players has been an amateur, volunteer organization, though many of its members have had academic and practical training in dramatics. Its membership is a cross section of the community and there is a job for everyone who wants the fun of putting on a play.

Enthusiastic Crowd Greet Nixon

A cheering crowd, estimated by police to number 10,000 greeted Vice President Richard Nixon and other Republican candidates at the breakfast rally held last Thursday morning at the Park Forest plaza. At the left of the vice president are Mrs. Nixon and Gov. Stratton and in the background are a number of Will county candidates.

"The foundations of American are essentially moral and spiritual," Nixon said in concluding his brief address, "and I think every American can be proud of the fact that he can hold up the President to his children as a man who has faith in God, faith in America and as one who has restored respect and dignity to the highest office in the land."

Learn to Operate Mokena Firemen New Inhalator

The Mokena volunteer fire department put its newly purchased inhalator into service and persons who have need of this device may call the fire department - Mokena 2121.

At the first class of instruction conducted last week by J. A. Renaldi, head of a company dealing in oxygen apparatus which supplied the Mokena department with the inhalator, 16 firemen turned out. Other classes will be held from time to time until eventually all members of the department will be able to operate the inhalator.

The device can be used in cases of drowning, suffocation, drug poisoning, electric shock, gas, hemorrhage, strokes heart failure and the like.

Many young men and women are in college, because their parents saved regularly. Why not stop in and see how you can plan ahead with regular savings?

FARM NEWS

For
Cook County
by
W. F.
Whiteside

assistant farm adviser

Ins. Farm new 2 col head cut
Achievement in 4H club work is uppermost in the minds of 4H members, leaders and parents this week. The county achievement program is held to recognize achievement by all County 4H members. Individuals and clubs who have done superior work are given special recognition.

Every 4H member in the county deserves high praise for the success of the 4H program this year. It shows the efforts of the entire 4H team of members, leaders and parents.

I might add that the ribbons, medals and certificates are just a measuring device. They help show progress toward the 4H goal, improved citizenship.

I had the distinct pleasure of taking a group of 4H members before a local service organization to review 4H accomplishments.

Ronald Kollman, Harvey, Bill Lorenz, Chicago Heights, Leslie Kohl, Matteson, and Joseph Mulderink, Blue Island, presented an excellent outline of 4H activities in Cook county.

This proves an old theory, 4H members themselves are the best advertisement for the 4H program.

The group also enjoyed hearing Mr. Kumar Jadeja, our International Farm Youth Exchange delegate from India. His account of farm life in India was very interesting. Kumar is staying with the Herbert Kohl family of Matteson.

I spent a week at the College of Agriculture attending our fall extension conference. The week was devoted to training extension workers to do a better job in their home county.

One of our most interesting speakers was Ty Thompson, of Park Forest. Ty is with the National 4H committee and spoke to us about 4H camping programs. Camping should enrich the lives of 4H members and extend their horizons of opportunity for physical, mental and emotional growth according to Mr. Thompson. Our 4H camp Shaw waw nas see has all the facilities to do this.

Charles Fletcher, soil conservationist, turned photographer, has a good picture of Conservation Farming. The picture shows a contour corn field being picked on the Raymond Knieriem farm, north of Mokena.

Norm Oebker, horticulture specialist at the University of Illinois, invites all vegetable growers to a state wide meeting Nov. 1 and 2 on the campus of Southern Illinois university. Production and Marketing of vegetables will be discussed by specialists from several midwest colleges.

If you turn cattle into corn-stalk fields, be sure to observe them closely. At the first sign of a digestive disturbance, call your veterinarian.

A simple dairy production rec

ord system has been perfected by the University of Illinois. This system is called the weigh a day a month plan. Here is how it works. One day in mid month dairymen record the weight of the milk produced by each cow at morning and evening milking. These records are tabulated and returned. These records are helpful in planning a good feeding and breeding program and in culling out unprofitable, low producing cows.

Bremen Troupers To Present Play November 9

The Bremen Community High School Troupers, directed by Miss Mildred Ellington, will present "Our Hearts Were Young and Gay", Nov. 9. This adaptation of the successful novel is a most amusing portrayal of two young girls on their own for the first time. One, a daughter of a famous actor the

other, the daughter of a mid-western family, become school chums. After their graduation from a finishing school their parents permit them to go on a European trip, and stay some time in the center of European culture, Paris. Their merry madcap adventures will account for much hearty amusement for the members of the audience.

Curtain time is 8 pm.
The show has been completely cast, and it is at present, in rehearsal.

The cast is as follows:
Steward, Charles Smith; Mrs. Skinner, Sharon Overin; Cornelia Otis Skinner, Karen Tower.

Otis Skinner, Gordon Flaws; Emily Kimbrough, Carol Bieber; Purser, Don Willis; Stewardess, Donna Bonaker; Dick Winters, Dennis Phillips; Admiral, Douglas Williams.

Harriet St. John, Jackie McShane; Winifred Blough, Allison Hires; Leo McEvoy, Preston Wakeland; Inspector, Beverly Mareck; Therese, Fran Loski; Madame Elise, Jo Ann Long; Monsier De La Croix, Bob Krygowski; Window Cleaner, Edgar Robertson.

Way It's Done

Since the end of World War II the U.S. has been engaged in the greatest expansion of productive capacity in its history. In a single decade our capacity to produce increased more than 50 per cent.

To make this possible, American business poured 172 billion dollars into new plant and equipment and, in addition, required large sums for inventory and working capital—so that a total of 242 billion dollars had to be provided.

GO REPUBLICAN

All The Way! Tuesday, November 6!

Will County Republican Central Committee, C. H. Peterson, Chairman, 15 W. Jefferson St., Joliet

Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven. (Mat. 5:16.)

Many Christians today ask the question, "How can I be true to my Christian calling when I am surrounded by so much that is unchristian?" Jesus said, "Ye are the light of the world." Men do not "light a candle, and put it under a bushel, but on a candlestick." This does not mean that Christians are to and hide somewhere; they have the obligation to be lights that shine into this unchristian world to make it a more decent place.

We are not called to criticize or condemn the world; Christ said, "Go ye into all the world, and preach the gospel." However, preaching is not confined to words only, but to living the gospel so that others will see our good works and glorify our Father in heaven.

This demands a faithful turning to God in prayer, and holding fast to those high standards of character revealed to us in the Sermon on the Mount. Only so will the light of Christ shine forth through us.

PRAYER

Our heavenly Father, help us to our Christian calling. Bless every humble soul who, in these days of turmoil, preaches sermons without words, and so show forth the glory of Thy name, through Jesus Christ our Lord. Amen.

THOUGHT FOR THE DAY

Christian love best expresses itself in Christian actions.

Lucius J. Solanki (India)

Hang Up Tubes of Glue

A MIGHTY smart way to organize adhesive container tubes at the workbench is to adopt the recommendation of *The Home Craftsman* magazine. Instead of using the threaded pins which usually come with such containers, obtain some inexpensive cup hooks and use them as caps.

With their concave flanges, these hooks create a double seal which keeps out the air. They also enable the craftsman to hang the tubes of glue, household cement, wood putty and other items in a neat row above the workbench, within reach and quickly identifiable.

In 1890, men in business offices outnumbered women by 8 to 1 in clerical jobs; today, women outnumber men by 3 to 1, except in government offices, where men still dominate.

Beverly and Ricky opened their many nice gifts, after which refreshments were served from a gaily decorated table centered with two decorated birthday cakes. Guests were: Mike and Jeffrey Newman, Marilyn and Bobby Newsome, Kathy, Jerry and Randy Konkel, Marcy

and Teddy Woodcock, Elizabeth Madden, Richard and Janice Peterson, Betty Jane and Kathy Malloy, Debbie White, Jeannise and Linda Heitman and Mark Bogatitus.

WEED TIME

Kill broad-leaved weeds now; that's advice from U. S. Department of Agriculture researchers. Late Oct. to early Dec. is the ideal season in most areas to spray 2, 4-D on dandelions, plantain, chickweed, wild onion, wild garlic and similar pests. Next spring your good grass will fill in the bare spots before crab grass gets started.

Business and Finance

Maurice P. Angland

The 82nd annual meeting of the American Bankers Association is taking place in Los Angeles. Naturally, at a convention of this kind, the main topic is the state of the money and credit market.

President Fred F. Florence of the association advised bankers that industrial capital expenditures are at a record rate, business inventories at an all time high and consumer and real estate mortgage credit moving steadily upward altho at a pace somewhat slower than 1955.

Business indices indicate that business of the country is likely to reach an all-time high in the last quarter of this year. However profits in all lines are not keeping pace with the expanding production. The squeeze of higher wages and material costs, is reducing profit margins as is stiffer competition.

The cost of living has resumed its upward spiral after a period of relative stability. Bankers have been of the opinion that there have long been potent ingredients for further inflation. In addition, there has been a long-term trend for the dollar to lose purchasing power over index shows that the 1900 dollar has a purchasing value of the years. The government BLS \$0.29.

There are many efforts to explain this long-term and persistent inflationary trend. The problem is, however, very complex and it is doubtful whether anyone can put the finger on any particular cause as being paramount.

One important cause of declining purchasing power is the desire to raise standards of living faster than the products of labor will justify. This, of course is borrowing against future earning power by demanding wages higher than near-term productivity can justify. An example is the steel industry which cannot gain enough increased productivity fast enough to avoid higher steel prices. Anticipating wages in the present, creates a future productivity by higher persistent upward pressure on the whole price structure.

The federal Reserve Board action in trying to curtail the likelihood of greater inflationary trends is now popularly known as a "tight money" policy. To date, the Federal Reserve has been able to resist pressures to lift its controls. It is very doubtful that the political "outs" believe their complaints against the efforts of the Reserve Board to at least have a restraining effect on the inflationary pressures. It is not too unusual for an individual to believe his own prices and profits are fair and just whereas his neighbor's prices and profits are unjust.

Some commentators on "tight

money" believe the Reserve Board did not create the "tight money" situation, and the FR merely allowed demand and supply of capital to seek its own level, as with any commodity. They point to the fact that savings of the population is the only source of capital and that the rate of savings has not been able to meet the demand for such capital. The claim that our industry expansion program, road program, etc. has simply

been going ahead at a greater rate than savings would accommodate at the lower interest rates and that higher interest rates will entice greater savings.

There's a telescope-camera, developed by an American company, that could locate an object as small as a clean white tennis ball shining in the sunlight — 1,000 miles from the earth.
